

# Montgomery College

## TECH 272 – Fall 2025 (Rockville Campus)

### Classwork 3 – Student Travel Portfolio

---

Instructions: Create your **Student Travel Portfolio** (see attached).

Be certain that it includes:

- Use two files – HTML and CSS.
- At the top use a header/banner to create a name (fictitious names are fine).
- Next, make 3 oval buttons that when chosen the user will be directed to that part of your web page. Be sure to use the padding function.
- Use the .btn:hover function to shade the button when the user's mouse hovers over the button.
- List 7 destinations with images and buttons that link to more information about the places in a new page.
- Using the list and nested lists, create a favorite section with your top 3 favorite places and list 3 different things about each place.
- Create an email entry button for users to stay in touch. Be certain to use the form and label buttons. Be certain to use a rounded orange 'Subscribe button'.
- Create a link for users to go to LinkedIn and Instagram.
- Use the footer function to write a message at the very bottom.

## Dream Destinations

Here are some of the top places I'd love to visit during my college breaks. Click the images to learn more about each location.

Paris

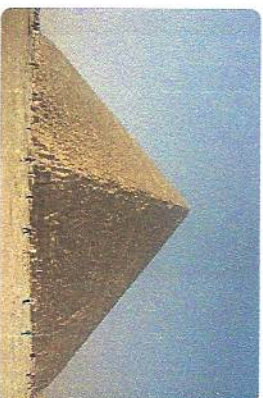

Japan

Australia

London

Greece

Brazil

Canada

## My Top 3 Favorites

Out of all the destinations, here are my personal top choices:

1. Japan

- Culture
  - Technology
  - Cherry Blossoms
2. Greece
- History
  - Beaches
3. Canada
- Nature
  - Friendly People
